PROFILE

Product Designer with 5+ years in design, including 3 years in UI/UX for web and mobile. I take products from discovery and user flows to high-fidelity Figma prototypes, and then ship them as working web apps using AI-assisted development. I have designed and launched business tools that small teams use every day, including a print-shop operations app used daily by a 9-person team, plus client e-commerce and brand websites. Google UX Design certified.

SKILLS

Product Design	User flows, wireframing, prototyping, information architecture, dashboard & data-heavy UI, role-based UX, responsive design
Research & Process	Requirement gathering with stakeholders, competitor & market research, usability principles, design thinking, iteration from user feedback
Design Systems	Reusable components, colour & type tokens, light/dark theming, developer-ready handoff
Build & Ship	HTML, CSS, JavaScript, Supabase (Postgres, auth, row-level security), Vercel, AI-assisted development (Claude Code)
Tools	Figma, Adobe XD, Illustrator, Photoshop, After Effects, CorelDraw
Visual Design	Branding & identity systems, print & packaging, motion graphics, social media design

EXPERIENCE

Freelance Product Designer - *Independent, Lucknow* Dec 2025 - Present

- Designed and shipped **MAAN COPIERS**, an operations app for a print shop: walk-in job tickets, stock, invoicing, party ledgers, payments and reports. It is in daily production use by 9 staff across 4 permission roles.
- Shipped over 100 iterative releases driven by staff feedback (for example, auto-detecting front-and-back print jobs and adding thermal-printer slips and day-by-day ticket views).
- Designed role-based access, a trusted-device login and private staff data, keeping the experience simple for non-technical staff.
- Delivered client websites end to end, including e-commerce, café and franchise brand sites, and a furniture showroom site with SEO set up for launch.

Senior Associate Graphic Designer (UI/UX) - *Sukhandaan International Pvt. Ltd., Lucknow* Oct 2023 - Dec 2025

- Turned client business requirements into user flows, wireframes and high-fidelity landing pages for web and mobile in Figma and Adobe XD.
- Built interactive prototypes to present concepts, then iterated with clients through feedback rounds before developer handoff.
- Kept the visual identity consistent across multiple brands' websites and social media accounts.

Senior Graphic Designer - *The Aviyaan, Lucknow* Sep 2021 - Oct 2023

- Designed social media creatives, logos and motion videos for the brand's digital marketing.
- Produced campaign assets across platforms while keeping the visual identity consistent.

SELECTED PROJECTS

- **SoulCalc - Print Quotation App (live):** instant quotes for 4 print product types with role-based accounts. Pricing logic runs on the server, so clients see only the final price. Supabase Edge Functions, Vercel
- **ClinicPilot - AI Front Desk (concept):** voice/chat receptionist, appointment booking wizard and staff dashboard for clinics, with multi-clinic branding. Next.js, Web Speech API
- **TallyPilot - AI Accounting Automation (in development):** designed a web and mobile flow that turns bank statements into Tally vouchers using AI ledger matching, with a review-and-correct step before export.
- **School ERP (demo):** a 12-module admin dashboard and a separate parent portal with scoped data access and full light/dark theming.
- **ANJALA - Chikankari E-commerce:** storefront with product filtering and a personalised name-art ordering flow.
